Backend: Django, Django REST Framework (DRF), REST APIs, Node.js (Basics)

Frontend: React (Basics), Bootstrap, Tailwind CSS

Databases: MySQL, PostgreSQL, MongoDB (Basics)

Tools & Platforms: Git, GitHub, VS Code, Vercel, Render

Concepts: CRUD Operations, API Integration, Authentication & Session Management, Responsive Design

PROFESSIONAL EXPERIENCE

Operations Expert – Grievance & Escalation Handling

Teleperformance (Flipkart Process) | Bangalore, India

- Managed high-level customer grievance cases as the final point of escalation
- Analyzed complex issues and ensured accurate resolution through internal systems
- Handled email-based operations including case review, action processing, and documentation
- Maintained detailed records and performed form-based workflow execution
- Coordinated with internal teams to resolve critical cases efficiently
- Ensured timely closure of cases while maintaining quality and compliance standards

PROJECTS

TweetWithMe – Social Media Web Application

Django, MySQL | GitHub: github.com/mohd-maruf-kureshi-2828/Tweety_full_stack_app

- Developed a full-stack social media platform using Django and MySQL
- Implemented secure user authentication and session management
- Built complete CRUD operations for posts with authorization control
- Designed Like and Comment system with relational database integration
- Added search functionality and user profile-based content filtering

AI Fitness Coach Web Application

Python, Django | Live: ai-fitness-coach-3552gtlu3-maruf-kureshis-projects.vercel.app

- Built an AI-based fitness planning web app with responsive UI
- Generated personalized fitness plans with PDF export feature
- Implemented dark/light mode for improved user experience

Car Collection Website

Django, PostgreSQL | GitHub: github.com/mohd-maruf-kureshi-2828/Car_Project_Using_Django

- Developed a full-stack web application with an admin dashboard
- Implemented CRUD operations and database integration

Currency Converter Web Application

JavaScript, HTML, CSS | Live: mohd-maruf-kureshi-2828.github.io/Currency_Converter

- Developed a responsive currency converter using JavaScript
- Enabled instant currency conversion with a clean, user-friendly UI

Personal Portfolio Website

HTML, CSS, JavaScript | Live: mohd-maruf-kureshi-2828.github.io/portfolio

- Designed a responsive personal portfolio showcasing projects, skills, and contact details

INTERNSHIP EXPERIENCE

Web Development Intern – Infidata Technologies

- Developed a Teacher Mapping Management System using PHP and MySQL
- Implemented database integration and CRUD operations

Full Stack Intern – Cognifyz Technologies

- Worked on frontend and backend fundamentals
- Gained experience in Git workflows, Node.js basics, and MongoDB

EDUCATION

Bachelor of Computer Applications (BCA) – Bangalore North University

Graduated 2025 | CGPA: 7.5

ADDITIONAL INFORMATION

- Built a Python Voice Assistant using Tkinter
- Strong interest in fitness, discipline, and continuous learning
